

# Switch & Save

with McFarlane's 100% Australian made, plastic free  
& compostable wet wipes by CleanLIFE

## CleanLIFE products

- ✓ **Fabric composition:** wood pulp – completely plastic free wet wipes, that are compostable & plant-based.
- ✓ **Time to breakdown in landfill:** 2-8 weeks (80% breakdown in 45 days).
- ✓ **Time to breakdown in industrial compost:** 180 days (compliant to EN13432).
- ✓ **Country of manufacture:** Australia.
- ✓ **Carbon footprint:** 53% less carbon intensive than imported.
- ✓ **Competitively priced** against plastic wipes.

## Alternative brands

- ✗ **Fabric composition:** plastic/ petroleum – resulting in microplastic pollution.
- ✗ **Time to breakdown in landfill:** 100+ years.
- ✗ **Time to breakdown in industrial compost:** not suitable.
- ✗ **Country of manufacture:** Off-shore, resulting in high carbon emissions, due to shipping of imported wipes to Australia.
- ✗ **Carbon footprint:** carbon intensive.
